ELDAT Easywave

Get to a higher level of comfort with this intelligent RF technology.

- Lights and blinds
- Windows and doors
- Heating and air condition

The Easywave RF system allows a maximum of flexibility and variation. At the same time it is very easy to configure and setting it up.

Approx. 5 years without changing the battery at an average of 5 uses per day (for battery-driven remote controllers).

Distance up to 30 m including 2 walls or about 150 m outside.

With IR-Easy you can have these advantages now also when using an environmental control unit that can only send IR.

The whole Easywave product line is now available from Sybility GmbH!
